Professional Summary

I work as a Senior Project Engineer with a focus on front-end and UI/UX development. I create responsive, user-friendly, and accessible websites using HTML, CSS, JavaScript, and platforms like WordPress and Shopify. I follow accessibility standards and performance best practices while turning design mockups into clean, maintainable code. I'm also familiar with Java and the Spring Framework and am continuously building my skills in full-stack development to contribute to both front-end and back-end solutions.

Education

- **Master of Computer Applications (MCA)** – Kurukshetra University, EMAX Group of Institution *(2016)*

- **Bachelor of Computer Applications (BCA)** – Punjab Technical University, Institute of Technology and Future Management Trends *(2014)*

Technical Skills

☑ **Web Development:** HTML, CSS, JavaScript, jQuery, Responsive Design, Bootstrap, SASS, Bootstrap-React and Tailwind
☑ **CMS Platforms:** WordPress, Shopify, Wix, HubSpot
☑ **Web & UI/UX Design:** Adobe Photoshop, Mockup Design, Web Accessibility
☑ **Performance & Optimization:** Page Speed Optimization, Debugging, Error Checking
☑ **Programming Knowledge:** Java (Basic), Spring Framework (Familiar), Java Server pages, React, Apache Tomcat

☑ **Version Control:** Git, GitHub
☑ **Email & Templates:** Email Template Design, PDF HTML Templates

---
